FROM THE ADAPT LIBRARY

# About this collection

This book comes from the working library we source against every week. It is published by one of Adapt Group's partner factories, and it is reproduced here as part of our Toilets collection — the range behind the quotes we write.

Adapt is a materials company, not a showroom. We buy **factory-direct** from our manufacturing partners overseas and deliver to your job site in Florida with **shipping, tariffs, and customs included** in the landed quote — one number, no freight surprises after the fact.

Treat this catalog as a sample of the range, not the limit of it. The catalog shows only a portion of what Adapt can source — if a specification, finish, or product isn't in these pages, ask. **Nothing is not available.**

Specifications and pricing are confirmed per project: send us your plans or a takeoff and we will spec-match the products, price the full package landed, and confirm every detail in writing before anything ships.

# TORNADO SYSTEM

The new Tornado system, next flushing systems come with visible edges and use only a small amount of water, leaving no space for dirt and bacteria to form. This makes it extremely quick and easy to clean.Designed with an innovative flushing system that facilitates cleaning any case installed in the same way as conventional toilet. Flushing and perfect cleaning are assured with just 4.5/3 litres of water.

No flush rim-nowhere for germs to hide. Without a flush rim, there is no hidden, hard-to-reach places where germs, bacteria, dirt and deposits can accumulate.

Easy to clean. A clean and sparkling ceramic surface with one wipe.

## Tornado Flushing

Tornado flushing mode specializes in “continuous swirling back”. It can get rid of waste easily, keep the inner surface clean and save water greatly.

## 360° All-round Washing

The wide water flow from all sides is washing the inner wall of the toilet with strong force, which makes it difficult for the dirt to attach.

## Soft-closing Seat Cover

Slow seat cover technology can reduce the noise, collision and breakage of the seat cover when it is closed.

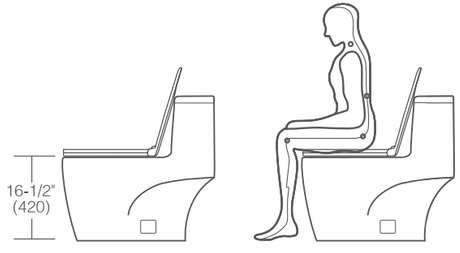

## Easy Detach

The system of quick release hinges

The new quick-release hinges allow removing the toilet seat with a simple and quick gesture thanks to special hinges fitted with side buttons. In fact, the seat can easily be disengaged from the guides by simply pressing both buttons and pulling it upwards. The two hinges can then be brought back to the locked position by replacing them on the guides and pushing downwards.

## Comfortable Height

The seat height conforms to the ergonomic design. Sitting for a long time will not make your legs numb, bringing a more comfortable use experience.

# MODERN

The simple and elegant modern art, the extraordinary and refined high-level sense, is a kind of beauty of freedom from form to god. For example, the creation of a painting creates a delicate natural relationship between the interior and the exterior.

In the design, it embodies the beauty of modern style and simple details, and constructs a comfortable space.

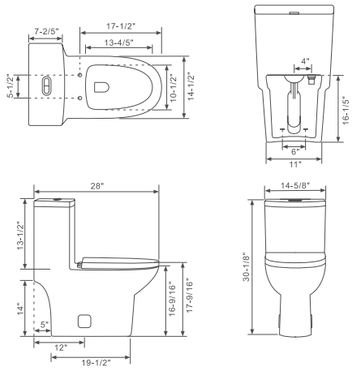

In modern life, looking for the aloofness of high clouds and clear winds, time is fixed at this moment.
